PROFILE

Senior Data Analyst with 5 years of experience leveraging data to improve operational performance, customer experience, and strategic decision-making. Skilled in transforming complex, multi-source datasets into actionable insights through advanced analytics, automated reporting, and scalable dashboard solutions. Experienced in partnering with leadership teams to identify opportunities, mitigate risks, and drive measurable business outcomes.

Currently supporting multi-country analytics initiatives at ENGIE Energy Access, where I develop executive dashboards and deliver insights across customer, workforce, and operational domains. Proficient in SQL, Python, Power BI, Tableau, Looker Studio, and Excel, with hands-on expertise in ETL processes, data governance, predictive analytics, and performance reporting. Recognized for building accessible data systems that strengthen organizational visibility, improve efficiency, and enable evidence-based decision-making.
